

IDENTIFYING MOISTURE ISSUES

Signs of Moisture

- Persistent and severe window or wall condensation
- Water stains, mold and mildew on walls or ceilings

Sources of Moisture

- Exposed soil in a crawlspace/basement area
- Excessive bathing, washing dishes and cooking
- Fish tanks or hot tubs
- Unvented exhaust from ovens, clothes dryers and water heaters
- Gutters that do not drain properly
- Leaky roof or plumbing

REWARDS OF UP TO \$2,000 ARE AVAILABLE FOR MAKING ELIGIBLE IMPROVEMENTS.

TAKE CONTROL OF MOISTURE PROBLEMS

Excess moisture in the home can cause air quality issues and health concerns. Typical causes of moisture and mold related issues are improper ventilation inadequate air sealing and insulation between the attic and the rest of the home. Solving moisture problems can be difficult and delays in repairs can result in additional damage that will be more costly over time.

The best way to identify your home's moisture issues is to contact a **Home Performance with ENERGY STAR®** Trade Ally. Trade Allies perform home energy assessments using special diagnostic tools and modeling software, make recommendations and then fix the problem areas in your home.

To find a Trade Ally near you, visit focusonenergy.com/HomePerformance or call toll-free 800.762.7077.

SAVING ENERGY AND MONEY FOR WISCONSIN

Focus on Energy, Wisconsin utilities' statewide program for energy efficiency and renewable energy, helps eligible residents and businesses save energy and money while protecting the environment. Focus on Energy information, resources and financial incentives help to implement energy efficiency and renewable energy projects that otherwise would not be completed.
